

GRAPPLES and SHEARS

Add more bite to your arsenal with KT-Grant, Inc.'s assortment of quick change grapple and shear attachments. Powerful hydraulic actuated tools that are capable of shearing or grasping steel, concrete, or refractory structural material.

An assortment of custom jaw designs are available for specialty applications. Coupled to one of KT-Grant, Inc.'s heavy equipment demolition machines, tear-out and clean-out operations become quick and effortless. The equipment can be operated a safe distance away from hazardous conditions, using our popular remote pendant control or radio control operation.

To assist different working conditions, the optional quick-change feature gives the machine the flexibility to switch from one attachment to another, as job requirements dictate.
