

SPECIALIZED DEMOLITION and DISMANTLEMENT

KT-Grant is a proven leader in demolition and dismantlement services. We offer decades of professional experience in a wide variety of industrial tear-out applications, including structures constructed of concrete, masonry, and steel. We are able provide partial to complete demolition of all structures as needed.

KT-Grant has a diverse line of heavy equipment for the demolition industry. Our machines offer an assortment of specialty attachments, to meet project requirements.

Many of our machines feature remote control operation to provide superior job performance, operator safety, and optimum visibility.

KT-Grant also has a complete line of conventional demolition equipment and specialized demolition machines. Unique demolition projects are our specialty.

Other services include:

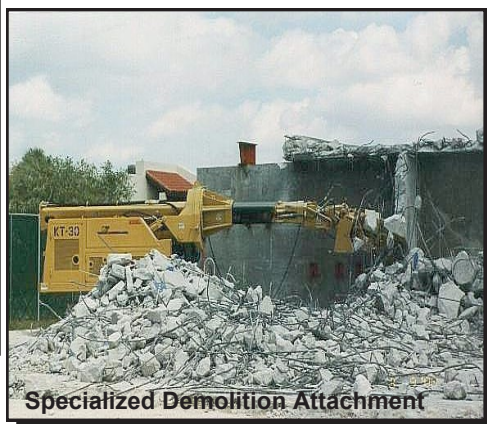

- Nuclear Dismantlement
- Specialized Demolition Attachments
- High Hazard Dismantlement & Demolition Projects
- Bridges, overpasses, parapets, abutments
- Buildings, vaults, foundations, piers
- Stacks, process vessels, furnaces, tanks, silos
- Refractory removal, deslagging, descaling, surface milling
- Selective demolition, scrap handling
- Hazmat trained, confined space solutions
