<complex-block>

# Our most popular ladle skimmer, the GSK-190 utilizes a telescopic boom equipped with a paddle to skim kish/slag off the top of hot metal into slag pits or pots located below.

The GSK-190 is equipped with a vertical lift which allows the operator to control the unit in a vertical plane. This feature allows the operator to adjust the depth of the paddle for different applications. The unit is permanently mounted while still allowing the versatility of adjusting for different depths.

The machine is controlled from a console unit located safely nearby, allowing proper vision. The GSK-190 can be equipped with an operator's cab and optional air conditioning unit. A nitrogen bubbler/lance is also available which when inserted into the metal, forces the dish/slag to the front center of the ladle making skimming more productive. Various paddle types are available to suit your application.

# SPECIFICATIONS

## GENERAL

Machine length based on stroke Stroke as per customer requirements up to: 25' (7620 mm) Machine width: 4'-6" (1372 mm) Machine height minimum Based on vertical lift requirements: Reach from center of rotation Based on stroke and tail swing: Boom vertical lift: up to 5' (1524 mm) Swing angle up to: 355° Base: 4'-6" SQ. (1372 mm) Skimmer weight dependant on stroke and configuration: 11000-15000 LBS

## **POWER UNIT**

#### Pump:

Operating pressure: Motor:

Reservoir heater: Hoist cylinders: Reservoir capacity: Hydraulic fluid: Piston pressure compensated. 1200 PSI (82 Bar) 40 Hp, 3 Ph, 230/460V, 60 Hz, 1765 Rpm 460 Vac. two (2) 100 Gal (379L) As per customers requirements

# **OPERATING SPEEDS**

Telescope: Hoist: Swing:

# CONTROLS

Control console: Height: Valves:

Weight:

# **OPTIONAL EQUIPMENT**

Double power unit, electric proportional load sense, Pendant controls, power unit dust covers, on and off board operators cab and power units, air conditioning.

4 ft/sec (1219 mm/sec) 2 in/sec (51 mm/sec) 5 Deg/sec

24" SQ. (610 mm) 40" (1016 mm) Three (3) sub plate mounted proportional manual actuated. 400 lbs. (181Kg)

# **GSK-190-18-5 WORKING RANGE**

Optional On-Board Operator's Cab and Power unit

Free Standing Hydraulic Power

**Dual Joystick Control**
