

Specialty Tool Attachments

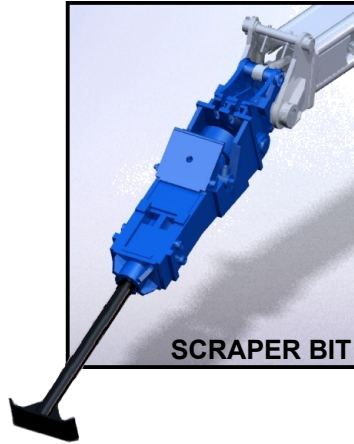

SCRAPING DEBRIS FROM EAF FURNACE

KT-Grant has a compliment of quick change attachments that can assist in tear-out and clean-out operations. Various assortment of attachments, including spade bits, scraper bits, and shank buckets are designed fore specific applications.

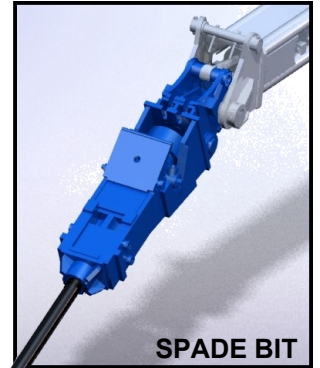

The attachments are easily interchangeable with the hydraulic hammer'smoil point bit. Themoil bit is simply removed from the hammer chuck, and one of the specialized attachments is installed in its place. The attachment can be put to use immediately, then quickly exchanged for another tool, as working conditions warrant.
